Guillermo Fernando Farfán Romero

Senior Full Stack Developer

Salta, Argentina (UTC-3 · Open to Remote / Relocation) | +54 9 11 2187-1473 | fernando.farfan16@gmail.com

Portfolio: gfarfan.dev | LinkedIn | GitHub | Credly

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 8+ years of experience engineering high-performance, reactive, and scalable web applications. Specialist in modern frontend architectures using **React.js, Next.js 14+ (App Router, Server Actions, React Server Components - RSC, SSR/SSG/ISR), and TypeScript (Strict Mode)**, combined with robust backend microservices in **Python (FastAPI, Django, Pydantic v2)** and **Node.js**, and optimized persistence with **PostgreSQL (with pgvector) and Redis**.

Proven track record optimizing Core Web Vitals (LCP < 1.2s, CLS < 0.05), integrating GenAI/LLM solutions (RAG architectures on Vertex AI / OpenAI API), building accessible Design Systems (WCAG 2.1 / a11y), and establishing continuous cloud deployment pipelines (**Google Cloud Run / GKE**). Combines technical rigor and product mindset with engineering team leadership, backed by a background in Information Systems and advanced coursework in Labor Relations (UBA).

TECHNICAL SKILLS & COMPETENCIES

- **Frontend Core & UI:** React.js (React 18), Next.js 14+ (App Router, Server Actions, React Server Components - RSC, SSR/SSG/ISR), TypeScript (Strict Mode), JavaScript (ES6+), TailwindCSS (JIT), TanStack Query (React Query), Redux Toolkit, Zustand, Semantic HTML5, Design Systems, Web Accessibility (WCAG 2.1 / a11y), Core Web Vitals & Lighthouse Optimization (>90).
- **Backend & APIs:** Python 3.10+ (FastAPI, Pydantic v2, SQLAlchemy 2.0, Django REST Framework, Asyncio, Celery), Node.js (Express, REST APIs), GenAI / LLM Integration (Vertex AI, OpenAI API, RAG, pgvector), Zod, RESTful APIs, OpenAPI/Swagger, WebSockets / SSE.
- **Databases & Caching:** PostgreSQL (Advanced Data Modeling, Query Tuning, pgvector), Redis (Distributed Caching, Pub-Sub, Rate Limiting), Microsoft SQL Server, MongoDB, MySQL.
- **Cloud & DevOps:** Google Cloud Platform (Cloud Run, GKE, Cloud Storage), Docker, Docker Compose, GitHub Actions (Automated CI/CD Pipelines, Zero-Downtime Deployments).
- **Testing & Methodologies:** Jest, React Testing Library, Playwright, Pytest, Clean Architecture, Domain-Driven Design (DDD), Agile Methodologies (Scrum, Code Reviews).

PROFESSIONAL EXPERIENCE

Technical Lead & Senior Systems Engineer (Full Stack Focus) | Reforest Latam

May 2026 – Present | Full-time (Remote)

- **Architected global state management and server-state caching with TanStack Query and Redux Toolkit** for environmental monitoring and telemetry platforms, driving a **40% reduction in redundant backend requests** and accelerating client-side rendering.
- **Established >85% automated test coverage** across frontend components and backend microservices via comprehensive suites in **Jest, React Testing Library, and Pytest**.
- **Designed and deployed automated CI/CD pipelines in GitHub Actions**, enabling continuous **zero-downtime releases** to **Google Cloud Run** and GKE.
- **Developed reactive SPAs and full-stack asynchronous microservices end-to-end** utilizing **React 18, TypeScript, TailwindCSS, and FastAPI** backed by PostgreSQL and Redis.
- **Directed and mentored an engineering team of 6**, facilitating Scrum ceremonies, code reviews, and establishing engineering standards across frontend and backend stacks.

Senior Full Stack & Software Consultant | Independent Consulting & Enterprise Projects

January 2021 – Present | Strategic B2B Technology Consultant (Independent / Contract / Remote)

- **Optimized enterprise web platforms using Next.js (App Router, hybrid SSR, dynamic imports, and aggressive caching)**, elevating **Core Web Vitals to Lighthouse scores >90 (LCP < 1.2s, CLS < 0.05)**.
- **Engineered and deployed high-concurrency REST APIs with FastAPI and Node.js/Express**, implementing schema validation with Pydantic/Zod, OpenAPI contracts, and secure JWT/OAuth2 authentication.
- **Accelerated local development and automated testing cycles** by containerizing full-stack environments with Docker Compose and standardizing deployments to Google Cloud.
- **Built administrative portals and real-time analytical dashboards** for enterprise clients across mining, retail, and healthcare industries.

Senior Software Engineer & Database Administrator | University of Buenos Aires (UBA)
March 2018 – February 2024 | Institutional Systems Specialist (Part-time / Buenos Aires, Argentina)

- **Developed responsive web interfaces (React, TypeScript, ES6+) integrated with Python APIs, slashing complex report query times from minutes to seconds** across relational databases serving **+50,000 active users**.
- **Built interactive dashboards** for real-time visualization, analytics, and automated export of academic and administrative KPIs.
- **Optimized client-server communication and database queries**, eliminating latency bottlenecks and improving overall UI responsiveness.

Systems Infrastructure & Digital Platforms Coordinator | Government of the City of Buenos Aires (GCBA)
January 2020 – December 2023 | Full-time (Buenos Aires, Argentina)

- **Standardized accessible digital form architecture and UI components (WCAG 2.1)**, reducing the delivery cycle for new municipal web features by **30%**.
- **Supervised performance and availability for citizen-facing web portals with >100,000 monthly users, reducing system incidents by 25% and maintaining a 99.9% uptime SLA**.

EDUCATION

- **Associate Degree in Information Systems** | National Technological University (UTN) *(In Progress — Expected Graduation: December 2027)*
- **Bachelor's Studies in Labor Relations & Human Resources** | University of Buenos Aires (UBA) *(Advanced University Coursework Completed — Focus on Organizational Leadership, Talent Strategy & Engineering Team Dynamics)*

KEY CERTIFICATIONS *(100% VERIFIABLE ON CREDLY)*

- **Full-Stack & Frontend Certifications (Credly):** Meta Full-Stack Engineer Certificate | IBM Full Stack Software Developer Certificate (V5) | Meta Front-End Developer Certificate.
- **Backend & DevOps Certifications (Credly):** Meta Back-End Developer Certificate | IBM JavaScript Backend Developer Certificate V2 | IBM DevOps and Software Engineering Professional Certificate.

LANGUAGES

- **Spanish:** Native
- **English:** Professional Working Proficiency (B2 — Fluent technical communication for live engineering syncs, RFCs, technical documentation, and cross-functional collaboration)
