PROFESSIONAL SUMMARY

Senior Cloud Infrastructure & SAP Basis Engineer with 8+ years of experience specializing in sizing, deploying, hardening, migrating, and optimizing enterprise **SAP workloads on Google Cloud Platform (GCP)** on **SUSE Linux Enterprise Server (SLES 15 SP5/SP7 for SAP Applications)** following strict SAP Notes compliance.

Extensive background in High Availability architectures (Pacemaker / Corosync, STONITH / SBD fencing with GCP Fence Agents), extreme performance storage sizing (block-aligned XFS, LVM, IOPS tuning on Hyperdisk/SSD for SAP HANA 2.0 and SAP CAR Rise), automation with **Terraform and Ansible**, and observability with **IBM Instana APM / OpenTelemetry**. Bridges technical cloud infrastructure, networking, security, and functional SAP consulting with strategic team leadership, backed by a background in Information Systems and advanced coursework in Labor Relations (UBA).

TECHNICAL SKILLS & COMPETENCIES

- **SAP Infrastructure & Cloud:** SAP CAR (Customer Activity Repository) Rise, SAP S/4HANA (Infrastructure / Basis), SAP NetWeaver, SAP HANA 2.0 (HSR - HANA System Replication, SPS 06/07, Backint for Google Cloud Storage), Google Cloud Platform (Compute Engine certified for SAP, GCVE, Bare Metal, VPC Peering, Cloud Interconnect, IAM, Secret Manager).
- **Virtualization & Systems:** Microsoft Hyper-V 2025 (Failover Clustering, Live Migration), VMware vSphere/ESXi, Veeam Backup & Replication (VBR), Active Directory, SUSE Linux Enterprise Server (SLES 15 SP5 / SP7 for SAP Applications), Red Hat (RHEL), Pacemaker, Corosync, STONITH / SBD fencing, GCP Fence Agents, Linux Kernel Tuning (*saptune*, sysctl, HugePages).
- **Storage & File Systems:** SAN Storage (HPE Alletra / 3PAR, MPIO Round Robin, CSV), XFS (Block-aligned I/O), LVM, optimized mount points for `/usr/sap`, `/sapmnt`, `hana/data`, `hana/log`, `hana/shared`, Google Cloud Persistent Disk (Hyperdisk/SSD), Filestore (NFS).
- **IaC & Automation:** Terraform (Certified Modules for SAP Private Topologies), Ansible for SAP, Bash Scripting, Python (Automation & Health-check Scripts).
- **Databases & DBA:** SAP HANA 2.0 (Memory Management, Delta Merges, Backint Backups), Microsoft SQL Server, PostgreSQL.
- **Observability & Networking:** IBM Instana APM (Host OS Sensors, JVM, DB Metrics), Zabbix, OpenTelemetry, Google Cloud Operations, Infoblox NIOS (DNS/DHCP), Firewall Rules & Cloud NAT.

PROFESSIONAL EXPERIENCE

Technical Lead & Senior Systems Engineer (Cloud Infrastructure / ERP Focus) | Reforest Latam

May 2026 – Present | Full-time (Remote)

- **Architected and implemented secure integration and persistence layers** connecting transactional/financial platforms with microservices on Google Cloud Platform, enforcing Zero-Trust policies and dedicated Service Accounts.
- **Ensured 99.9% operational uptime SLAs** through proactive observability pipelines, automated alerting, and orchestrating zero-impact scheduled maintenance windows.
- **Led infrastructure governance and business continuity directives**, aligning resilience and deployment standards across engineering and operations teams.

Senior SAP Cloud Infrastructure & DevOps Consultant | Independent Consulting & Enterprise Projects

January 2021 – Present | Strategic B2B Technology Consultant (Independent / Contract / Remote)

- **Led cloud migration and provisioning of enterprise SAP and critical workloads to GCP (Grupo Ramos - Phase II)** utilizing **Migrate to Virtual Machines (M4CE)** and **Terraform**, sizing Compute Engine instances, OS hardening on **SLES 15 SP7** (*saptune*), and storage optimization with **XFS/LVM** for SAP CAR Rise.
- **Architected and deployed high-availability virtualization infrastructure on Microsoft Hyper-V 2025 (Universal Group)** on HPE Synergy blades with HPE Alletra/3PAR SAN storage (55 TB CSV, MPIO), orchestrating replication and backup with **Veeam Backup & Replication (VBR)**.
- **Maximized critical storage performance and throughput** by configuring block-aligned XFS volumes and advanced LVM management for transactional mount points and NFS Filestore shares.
- **Integrated advanced observability with IBM Instana APM and Zabbix** for real-time monitoring of CPU, memory, IOPS, and High Availability cluster health (Pacemaker/Corosync), cutting MTTR by 45%.
- **Engineered hybrid connectivity and disaster recovery plans (DRP) with Infoblox NIOS**, migrating 12 DNS domains and 283 DHCP subnets under high-availability architectures.

Senior Software Engineer & Database Administrator | University of Buenos Aires (UBA)
March 2018 – February 2024 | Institutional Systems Specialist (Part-time / Buenos Aires, Argentina)

- **Designed and implemented automated replication and backup policies across 8+ TB of corporate data**, guaranteeing **strict compliance with RPO < 15 min and RTO < 1 hour**.
- **Optimized storage and I/O performance**, resolving file system bottlenecks and administering high-concurrency database servers.

Systems Infrastructure & Operations Coordinator | Government of the City of Buenos Aires (GCBA)
January 2020 – December 2023 | Full-time (Buenos Aires, Argentina)

- **Coordinated scheduled maintenance windows between infrastructure and telecommunications teams**, achieving a **30% reduction in operational disruption** during large-scale upgrades.
- **Guaranteed a 99.9% operational uptime SLA** across citizen-facing government digital platforms.

EDUCATION

- **Associate Degree in Information Systems** | National Technological University (UTN) *(In Progress — Expected Graduation: December 2027)*
- **Bachelor's Studies in Labor Relations & Human Resources** | University of Buenos Aires (UBA) *(Advanced University Coursework Completed — Focus on Organizational Leadership, Talent Strategy & Engineering Team Dynamics)*

KEY CERTIFICATIONS *(100% VERIFIABLE ON CREDLY)*

- **DevOps & Security Certifications (Credly):** IBM DevOps and Software Engineering Professional Certificate | IBM Security for Professionals and DevOps Professionals | IBM Java Developer Professional Certificate V2.
- **Cloud & Agile Specializations:** Google Cloud Fundamentals: Core Infrastructure (Google Cloud) | IBM IT Scrum Master Specialization | IBM Full Stack Software Developer Certificate.

LANGUAGES

- **Spanish:** Native
- **English:** Professional Working Proficiency (B2 — Fluent technical communication for live engineering syncs, RFCs, technical documentation, and cross-functional collaboration)
